Your clients give you 5 stars. Does the internet show that?

This is the **Customer view**: I looked at Narcissus Day Spa the way a new client would. First what people say on Google, then what they find when they look for your website. Here is what I found.

POINTS MAPPED FOR NARCISSUS DAY SPA

I found 12 points. I unlocked 3 to get you started.

3 of 12 points unlocked in this diagnosis

1 UNLOCKED

There's no website to land on

People who find you on Google have nowhere to see your work, your prices and your reviews in one place.

2 UNLOCKED

You only show up when they already know your name

Without a site, you rarely appear when someone searches for the service in your area.

3 UNLOCKED

A new client has no reason to trust you yet

Before calling, people want to be sure. Without real photos, your reviews and the people behind the work in one place, they stay in doubt and pick whoever feels safer.

HOW I SOLVE THIS FOR YOU

From diagnosis to a website that brings clients

1 **Strategy for your business**

I define with you what makes Narcissus Day Spa different and what your clients search for before they choose. Everything else is built on that.

2 **A custom, animated website**

Design and copy made for you, fast and beautiful on phones, with your best work on the first screen. You approve everything before it goes live.

3 **Trust from the first click**

Your Google listing points to the new site, and the trust from your reviews continues there: real photos, testimonials and the people behind the work.
