Customer view · Nov 2026

● Free diagnosis · made for South Texas Remodeling Solutions

Your clients give you 4.8 stars. Does the internet show that?

This is the **Customer view**: I looked at South Texas Remodeling Solutions the way a new client would. First what people say on Google, then what they find when they look for your website. Here is what I found.

GOOGLE × WEBSITE

What clients say and what the internet shows

On Google, clients rate you

4.8 ★ stars on Google

★★★★★

Every one of those stars was earned in person. That trust is your strongest asset.

When someone looks for your website

Add missing information

On Google you have 4.8 stars, which means people who come to you leave happy.

POINTS MAPPED FOR SOUTH TEXAS REMODELING SOLUTIONS

I found 12 points. I unlocked 3 to get you started.

3 of 12 points unlocked in this diagnosis

1 UNLOCKED

There's no website to land on

People who find you on Google have nowhere to see your work, your prices and your reviews in one place.

2 UNLOCKED

You only show up when they already know your name

Without a site, you rarely appear when someone searches for the service in your area.

3 UNLOCKED

A new client has no reason to trust you yet

Before calling, people want to be sure. Without real photos, your reviews and the people behind the work in one place, they stay in doubt and pick whoever feels safer.

HOW I SOLVE THIS FOR YOU

From diagnosis to a website that brings clients

1 **Strategy for your business**

I define with you what makes South Texas Remodeling Solutions different and what your clients search for before they choose. Everything else is built on that.

2 **A custom, animated website**

Design and copy made for you, fast and beautiful on phones, with your best work on the first screen. You approve everything before it goes live.

3 **Trust from the first click**

Your Google listing points to the new site, and the trust from your reviews continues there: real photos, testimonials and the people behind the work.

WHO WE ARE

More than 30 businesses served. Now arriving in the US.

Some of the websites we built. Open them on your phone and see the animations:
