Free diagnosis · made for R&R Custom Home Remodeling

Your clients give you 5 stars. Does the internet show that?

This is the **Customer view**: I looked at R&R Custom Home Remodeling the way a new client would. First what people say on Google, then what they find when they look for your website. Here is what I found.

GOOGLE × WEBSITE

What clients say and what the internet shows

On Google, clients rate you

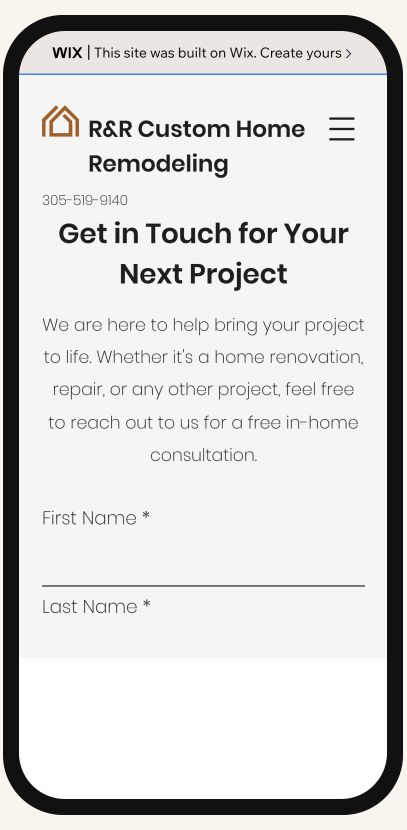

5 ★ stars on Google

★ ★ ★ ★ ★

Every one of those stars was earned in person. That trust is your strongest asset.

When someone looks for your website

Hard to use on a phone

On Google you have 5 stars, which means people who come to you leave happy.

NEXT STEPS

Next steps to make R&R Custom Home Remodeling stand out

3 of 12 points unlocked here. The full diagnosis comes with your website.

1 UNLOCKED

It's hard to use on a phone

Most visits come from phones. Small text and zooming in make people leave in seconds.

2 UNLOCKED

Your best work isn't on the first screen

Visitors decide in about three seconds. The first screen should show your results, not generic text.

3 UNLOCKED

The site doesn't match the trust of your reviews

Someone who arrives from your 5-star reviews expects the same quality. An outdated site makes them doubt what they just read.

HOW I SOLVE THIS FOR YOU

We build websites that earn trust

1 **Strategy for your business**

I define with you what makes R&R Custom Home Remodeling different and what your clients search for before they choose. Everything else is built on that.

2 **A custom, animated website**

Design and copy made for you, fast and beautiful on phones, with your best work on the first screen. You approve everything before it goes live.

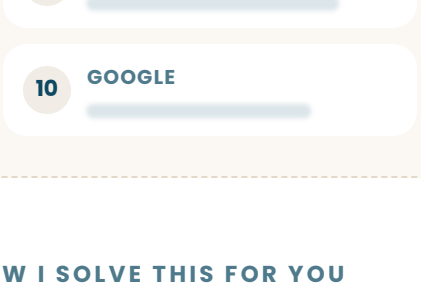

3 **Trust from the first click**

Your Google listing points to the new site, and the trust from your reviews continues there: real photos, testimonials and the people behind the work.
