Your clients give you 4.8 stars. Does the internet show that?

This is the **Customer view**: I looked at Black Walnut the way a new client would. First what people say on Google, then what they find when they look for your website. Here is what I found.

GOOGLE × WEBSITE

What clients say and what the internet shows

On Google, clients rate you

4.8 ★ stars on Google

★★★★★

Every one of those stars was earned in person. That trust is your strongest asset.

On Google you have 4.8 stars, which means people who come to you leave happy. That's what makes someone trust you with their stay. But when I clicked your website, the address was up for sale.

POINTS MAPPED FOR BLACK WALNUT

I found 12 points. I unlocked 3 to get you started.

3 of 12 points unlocked in this diagnosis

1 UNLOCKED

The link on Google leads nowhere

Clients click your website and land on an error or a page that isn't yours.

2 UNLOCKED

It looks like you closed

Many people assume the business no longer exists and choose a competitor.

3 UNLOCKED

Your 5-star reputation stops at a broken link

All the trust you built on Google is lost right at the moment people want to contact you.

HOW I SOLVE THIS FOR YOU

From diagnosis to a website that brings clients

1

Strategy for your business

I define with you what makes Black Walnut different and what your clients search for before they choose. Everything else is built on that.

2

A custom, animated website

Design and copy made for you, fast and beautiful on phones, with your best work on the first screen. You approve everything before it goes live.

3

Connected to Google

Your Google listing points to the new site, with a clear button to book or ask for a quote, so the trust from your reviews turns into contacts.

WHO WE ARE

More than 30 businesses served. Now arriving in the US.
