Your clients give you 4.8 stars. Does the internet show that?

This is the **Customer view**: I looked at South Texas Remodeling Solutions the way a new client would. First what people say on Google, then what they find when they look for your website. Here is what I found.

What clients say and what the internet shows

On Google, clients rate you

4.8 ★ stars on Google

★★★★★

Every one of those stars was earned in person. That trust is your strongest asset.

On Google you have 4.8 stars, which means people who come to you leave happy. That's what makes someone trust you with their home. But when I looked for your website, I couldn't find one.

NEXT STEPS

Next steps to make South Texas Remodeling Solutions stand out

3 of 12 points unlocked here. The full diagnosis comes with your website.

1 UNLOCKED

There's no website to land on

People who find you on Google have nowhere to see your work, your prices and your reviews in one place.

DO THIS TODAY
In your Google Business Profile, add your Instagram or WhatsApp link in the Website field, so people have somewhere to go.

2 UNLOCKED

You only show up when they already know your name

Without a site, you rarely appear when someone searches for the service in your area.

DO THIS TODAY
Upload 10 real photos of your work to Google and reply to your last 5 reviews by name. Google shows active profiles to more people.

3 UNLOCKED

A new client has no reason to trust you yet

Before calling, people want to be sure. Without real photos, your reviews and the people behind the work in one place, they stay in doubt and pick whoever feels safer.

DO THIS TODAY
Write in your Google description and Instagram bio the exact sentence a client would search, like your service + your city.

HOW I SOLVE THIS FOR YOU

We build websites that earn trust

1 **Strategy for your business**

I define with you what makes South Texas Remodeling Solutions different and what your clients search for before they choose. Everything else is built on that.

2 **A custom, animated website**

Design and copy made for you, fast and beautiful on phones, with your best work on the first screen. You approve everything before it goes live.

3 **Trust from the first click**

Your Google listing points to the new site, and the trust from your reviews continues there: real photos, testimonials and the people behind the work.
